Architec 400[®], FR Comshade[®]
and Comshade XTRA[®]*

Polyfab Shade Sail Edge Webbing™

Used for Shade Structures and Shade Sails, **Polyfab Shade Sail Edge Webbing** is the choice for fabricators looking for an “edge” over their competition! Made in Australia, this premium polyester webbing is available in 25mm/ 1 inch (Black) and 50mm/2 inch widths in 100m/109yd length rolls.

The black webbings are woven from solution dyed black yarn and will therefore provide the best fade and UV resistance.

Technical Specifications	1 inch	2 inch
Breaking Force	2200 lbs	4400lbs

Polyfab shade sail edge webbing™ is available in 23 designer colors.
